65+	45.15%	59.72%	72.97%	76.99%	
Unknown					14.48%

KEY INSIGHT - OVERALL POPULATION

Income: Redemption increases from 44.5% in the 30–50K income group to 76.8% among customers earning 90K+, suggesting higher promotional responsiveness in upper-income segments.

Gender: Female customers consistently outperform male customers across all age groups, with redemption gaps of approximately 13–21 percentage points.

Age: Customers aged 45+ show stronger redemption, reaching approximately 63–65%, compared with 46% among customers aged 18–24.

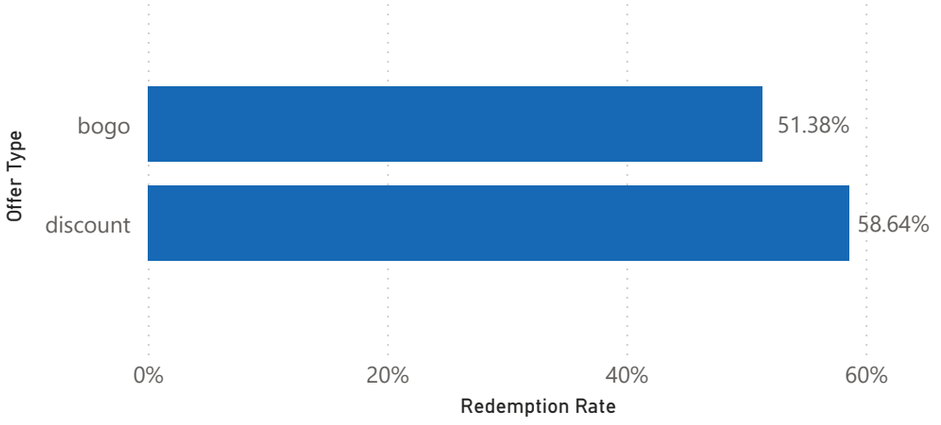

Strategic Opportunity: Test differentiated offers for younger, lower-income and male customers, while improving incomplete customer profiles and evaluating the profitability of high-response segments.

Note: *Insights represent the unfiltered population and do not change with slicers. Redemption is calculated using BOGO and Discount offer events only.*

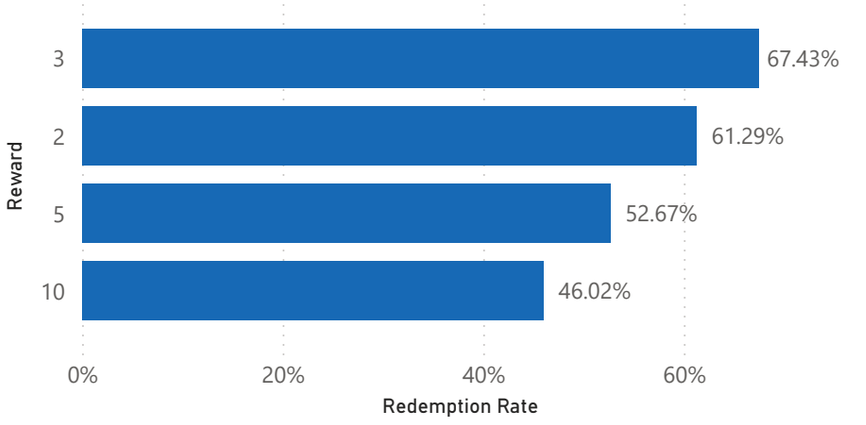

OFFER PERFORMANCE

Offer Type | Reward | Channel | Difficulty

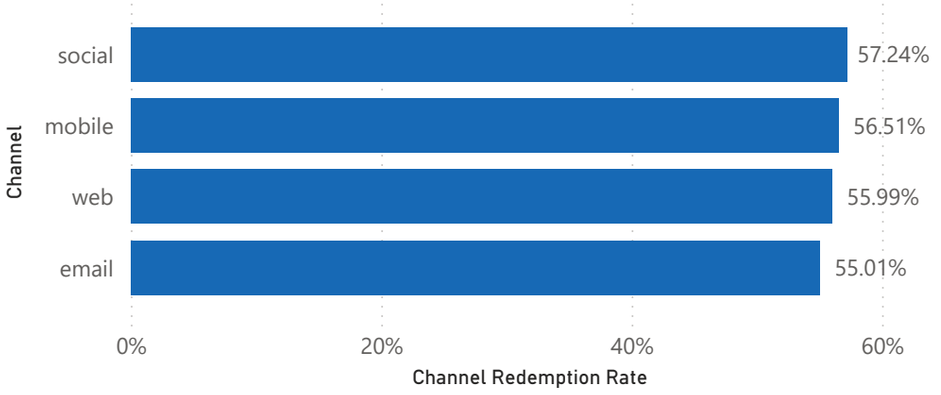

Redemption Rate by Offer Type

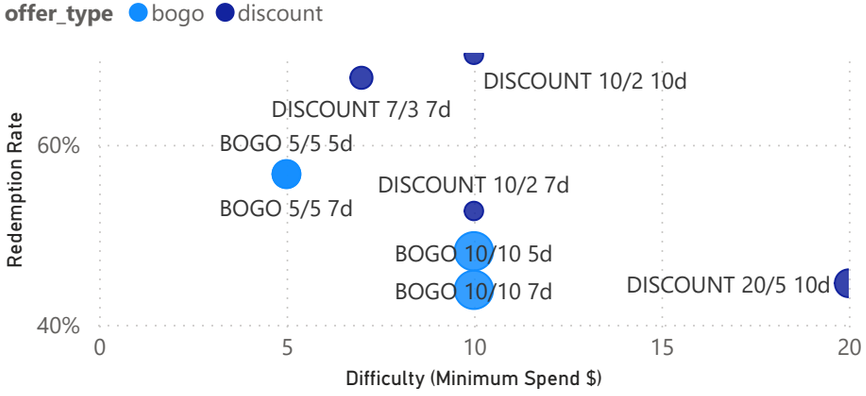

Redemption Rate by Reward ($)

Redemption Rate by Channel

Difficulty vs Redemption Rate

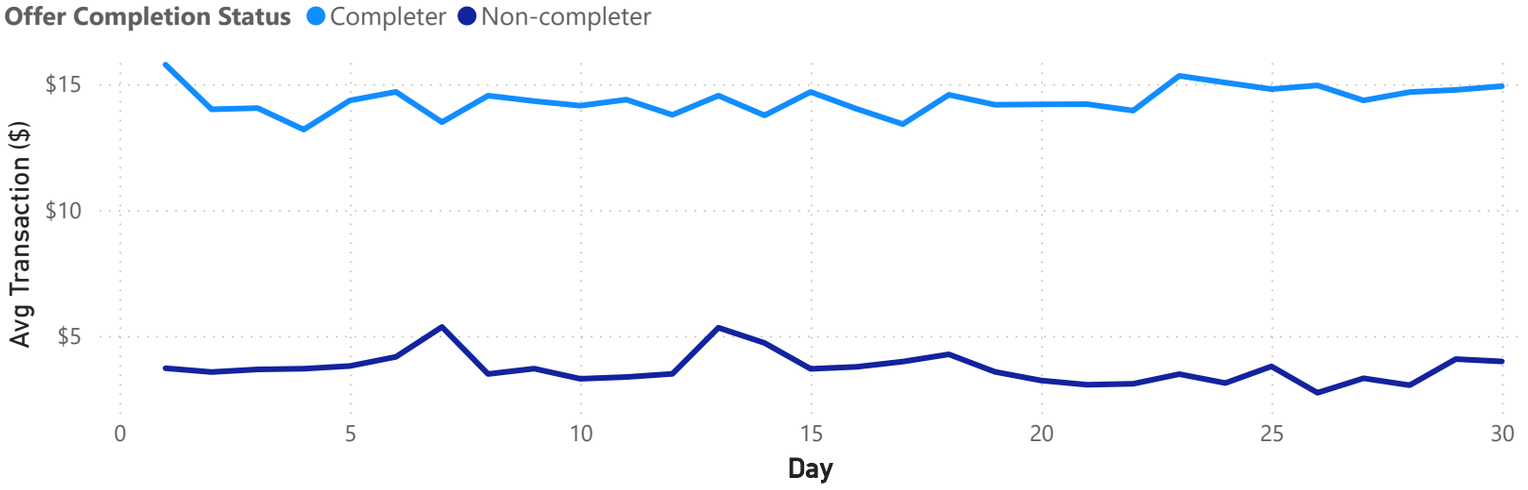

KEY INSIGHT:

Discounts beat BOGO: 58.6% vs 51.4% redemption.
Bigger reward ≠ better: $3 rewards redeem best (67.4%); $10 rewards redeem worst (46.0%) because they require $10 spend.
Easy and long wins: DISCOUNT 10/2 10d tops at 70.0%; the hardest offers (difficulty 20, or BOGO 10/10 5d) are lowest at ~44%.
Social drives visibility: 93% of social offers are viewed vs ~73% on web.
Same offer, different result: DISCOUNT 10/2 redeems 70.0% when sent for 10 days via social, but only 52.6% when sent for 7 days without social.
Action: favour low-difficulty discounts with a longer duration, always include social, and review the $20-spend discount.

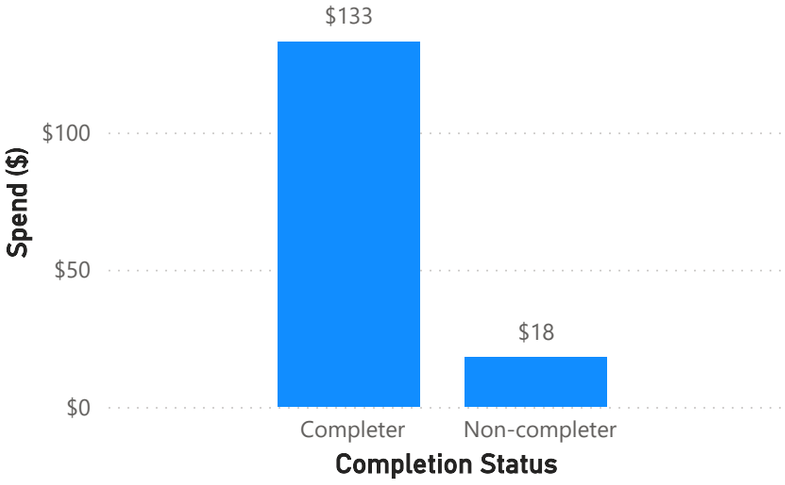

TRANSACTION BEHAVIOR

Spending Trends | Purchase Frequency | Customer Value

Average Transaction Amount by Day — Completers vs Non-completers

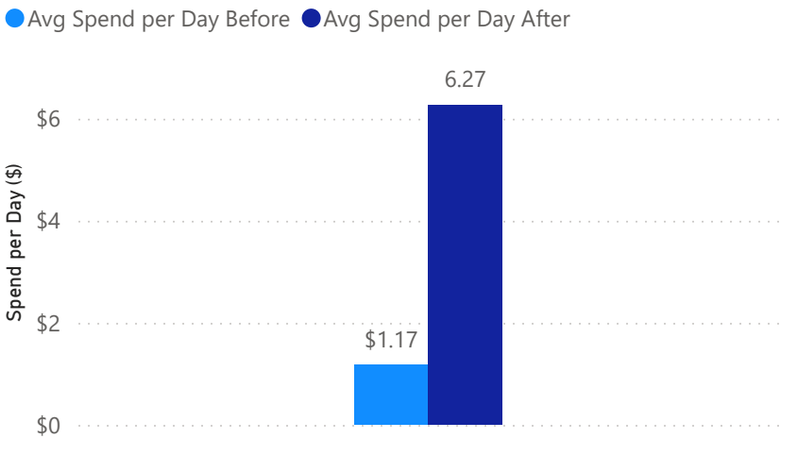

Average 30-Day Spend per Customer

KEY INSIGHT:

Higher Transaction Value: Completers spend approximately **4× more per transaction** ($14.38 vs $3.67).
Greater Purchase Frequency: Completers make **9.3 vs 4.9 transactions per customer**.
Higher Customer Value: Average 30-day spend is **$133 vs $18** for completers and non-completers.
Revenue Concentration: Approximately **75% of customers** completed an offer, accounting for **96% of total revenue**.
Leadership Action: Test strategies to increase first-time redemption and measure incremental revenue, retention and promotional profitability.

Daily Spend Before vs After First Completion
